

**Cement Council of Texas Announces New Executive Director**  
*Richard B. Rogers, PE appointed Executive Director*

April 25, 2019. – The Cement Council of Texas announced that its Board of Directors has selected Richard B. Rogers, PE to serve as Executive Director.

Mr. Rogers comes to us with more than 45 years of experience, in the design, construction and maintenance of concrete pavements. He most recently served as the Senior Director of Concrete Pavements for the Cement Council of Texas. In this role, he provided engineering direction and assistance to the Texas Department of Transportation on their largest concrete pavement projects. He also advised other state and local

agencies, their consultants and project partners on large scale projects in both the public and private sectors

Prior to joining the Cement Council of Texas, Mr. Rogers was a member of the Transtec Group where he served as the pavement engineering lead on major design-build projects. His knowledge of foundation design, mix design, and pavement engineering, as well as pavement testing and evaluation and pavement performance is well respected within professional circles. He has developed and led workshops for professional engineers and government representatives and has helped to develop important cement pavement guidelines for state and national agencies.

From 1979 to 2004, Mr. Rogers worked for the Texas Department of Transportation in a variety of supervisory and technical capacities. During his service with TxDOT he was loaned to the National Academy of Science, in 1991, and the Federal Highway Administration, in 2001, to work on the Strategic Highway Research Program. He is a veteran of the United States Air Force where he served as a Civil Engineering Officer responsible for the design, construction and maintenance of base pavement and railroad facilities.

Mr. Rogers received his Master of Science degree in civil engineering from the University of Texas and his bachelor's degree in civil engineering from the Virginia Military Institute.

The Cement Council of Texas is located in Hurst, Texas. For more information, visit [www.cementx.org](http://www.cementx.org).
